LPI, INC. PRODUCTS AND SERVICES

LPI, Inc. serves customers around the globe from our headquarters located in Eau Claire, Wisconsin USA. LPI designs, fabricates and installs personnel lift systems. LPI offers both standard and custom lift systems and work platforms, designed for use in a wide variety of industrial and commercial applications. LPI's history in the paint finishing industry has led to the development of many products that can be used in other hazardous environments. LPI's expertise extends to lift systems for assembly, welding, inspection, and fall protection. Our lifts are used in applications ranging from welding, blasting and painting of rail cars, to clean room lifts for NASA. Other major industries that utilize LPI lifts include construction and agriculture equipment manufacturers, aircraft and aerospace manufacturers, transit authorities and the manufacturers of buses and light rail vehicles. Our sales and engineering staff work closely with clients to gain a full understanding of their needs to develop cost effective solutions. LPI's design team develops products which utilize state of the art technologies. LPI is a leader in the personnel lift industry.

LPI® promotes a safe and ergonomic work environment which increases worker productivity.
LPI® equipment meets applicable OSHA/ANSI standards.
