

# SERVICE PLATFORMS

Service Platforms for Accessing Equipment Mounted on Vehicles

With 30 years experience, LPI is the recognized industry leader in manufacturing lifts. Challenge us with your application.

## Mobile Roof Top Service Platform

Vehicle maintenance lifts can be designed as either stationary platforms or mobile platforms. These platforms can be equipped with fall protection systems to provide additional safety, protecting workers from unnecessary risks and injury due to falls from elevated positions. Custom work platforms such as this one designed to service roof top satellite systems on mobile vans, can incorporate other material handling systems, and custom features. Overhead booms and gantry systems, with powered hoists, or platform deck insert plates to accommodate varying sized vehicles are some of the custom options that are available.

Easy access to an expanded work surface with fall protection railings improve worker safety and accessibility to roof top equipment to perform required maintenance.

View our website - [www.lpi-inc.com](http://www.lpi-inc.com) for more information on the Work-Catch Platforms or any of our other products. Our engineers will work closely with you to develop a system designed specifically to your application.

# Mobile Roof Top Service Platform

## Applications

Fall Protection / Safety  
Ergonomic Positioning  
Maintenance  
Fabrication / Assembly

- Steps are designed for easy access and can be swung out of the way for space saving storage. (Jack not included)
- Casters provide improved platform mobility.
- Height adjustment from 7'-0" to 7'-8" work surface can be adjusted to provide a level work surface.
- Hand railing provides a safer work area and fall protection
- Maximum capacity of 750 lbs.

## DIMENSIONS

## NOTES:

1. STRUCTURE TO BE USED ON A FLAT/HARD SURFACE ONLY.
2. WALKWAYS HAVE 42" HANDRAILS WITH 4" KICK PLATE ON OUTSIDE PERIMETER.
3. MAXIMUM CARRYING CAPACITY: 750# EVENLY DISTRIBUTED

LPI® provides solutions that improve productivity and maximize safety with a comprehensive array of services including design, manufacturing, and assembly capabilities for a wide range of applications and markets.

LPI® promotes a safe and ergonomic work environment which increases worker productivity.
