

# Freestanding Rail Guided 3-Axis Pneumatic Personnel Lift

Watch video  
of this lift in paint  
application!

LPI's Freestanding Rail Guided 3-Axis lift is the perfect solution for lift integration when the existing building structure is not suitable for supporting a wall mounted lift.

## Key Benefits

- No building structure required
- Improved safety due to elimination of ladders and scaffolding and frequent entries/exits.
- Ergonomics & productivity increased by replacing the need for repositioning of ladders and scaffolding.
- Reduction in rework or touch-up work because workers have better access to surfaces while performing initial work.

## Applications

Painting, Surface Prep, Inspection, Assembly, Welding, Maintenance & more!

# Freestanding Rail Guided 3-Axis Pneumatic Personnel Lift

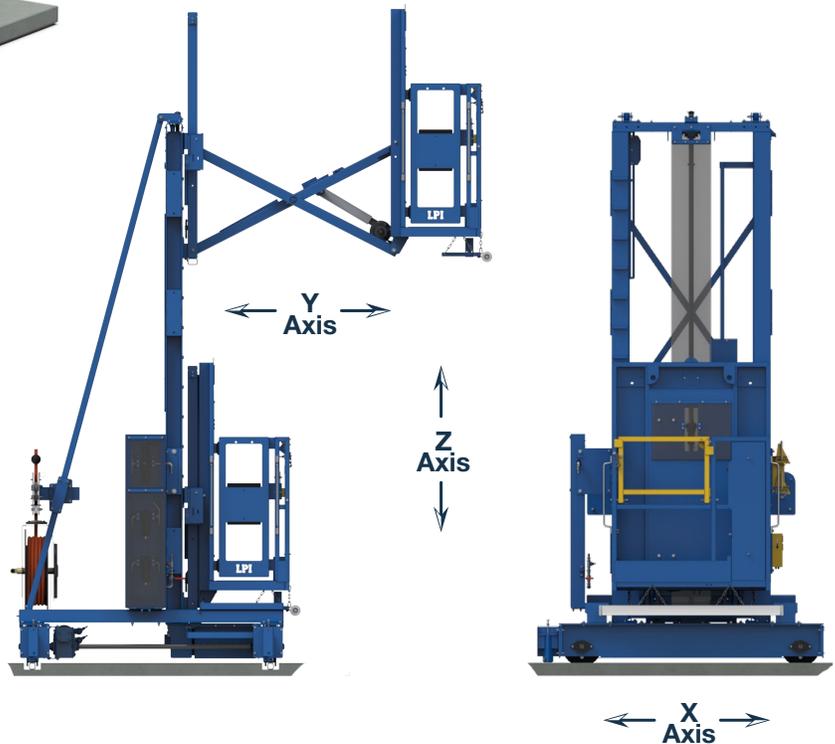

## Features

- Self rewinding air hose management system
- Tip out platform gate (30°) for increased access
- X-Axis (left/right) foot controls
- Y-Axis (in/out) & Z-Axis (up/down) hand controls
- Self-closing/latching platform entry gates
- 48in. x 24in. operator platform
- Fall protection anchor points
- Base controls for Z-Axis
- Suitable for use in industrial or hazardous locations

## Operation

- Air supply of 80scfm @ 100psi
- 400lb. platform capacity
- X-Axis speed: variable up to 40fpm
- Z-Axis speed: 15fpm
- Y-Axis speed: 15fpm

LPI promotes a safe and ergonomic work environment which increases worker productivity.  
Specifications may be changed subsequent to printing.
